To the Admission Committee,
University of Padua (Università degli Studi di Padova)

It is my pleasure to write this letter of recommendation to the Admission Committee at the University of Padua in support of Mr. Mahan Keramati, whom I had the opportunity to know during his undergraduate studies in Mathematics and Applications at K. N. Toosi University of Technology. I served as his professor at the university during that period and interacted with Mr. Keramati in an academic capacity.

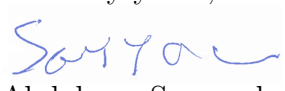

Mr. Keramati distinguished himself as an exceptionally strong and motivated student, demonstrating both mathematical maturity and a genuine interest in computational and algorithmic thinking. In particular, Mr. Keramati showed outstanding performance in my courses such as Probability 1, Statistical Methods and Stochastic Processes, where he demonstrated a strong command of abstraction, problem decomposition, and rigorous analytical reasoning. Beyond coursework, Mr. Keramati possesses a rare ability to bridge theory with practice.

Mr. Keramati is disciplined, self-driven, and capable of sustained independent work. He approaches complex problems methodically and communicates technical ideas with clarity. In my professional judgment, he possesses the academic rigor, creativity, and perseverance required to excel in graduate-level study and research, particularly in fields related to computer science, data science, and applied mathematics.

I recommend Mr. Mahan Keramati without reservation and am confident that he will be a valuable addition to the Master's program at the University of Padua.

Please feel free to contact me should you require any additional information.

Sincerely yours,

Abdolreza Sayyareh
Professor of Statistics
